INFERNEX® HIGH HEAT COATINGS

INFERNEX®
PROVEN HIGH HEAT PERFORMANCE.

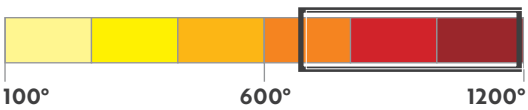

Engineers and equipment manufacturers have trusted Forrest Technical Coatings for decades as a world leader in high performance liquid coatings. Our latest comprehensive collection, INFERNEX®, is specially formulated to solve your exterior exposure challenges by providing a cost-efficient application that delivers on appearance and corrosion resistance with low environmental impact.

Forrest Technical Coatings has been the respected global manufacturer and distributor of the high temperature Stove Bright® brand since 1978. We bring the same innovative chemical engineering and experience to the INFERNEX® product line.

INFERNEX® L-1200 | (62H290)

Originally engineered for high temperature resistance, INFERNEX® L-1200 has proven itself a reliable coating for more than 30 years due to its unique blend of pigments in a silicone polymer resin. Designed for rapid curing and good film integrity, this product also provides good corrosion protection to various substrates.

INFERNEX® L-1200	(62H290)		
Peak Temp	1200° F (648° C)	Continuous	1100° F (593° C)
Adhesion (1Hr) ASTM D3359	4B	Color Change (8 Hrs)	PASS
240 Hrs Salt Spray ASTM B117/D1654	PASS	Pencil Hardness ASTM 3363	H
Accelerated Weathering (QUV A) ASTM D4587-11	100% Gloss Retention 300 Hrs	Gloss @ 60° ASTM D523-14	2-5

It is always recommended the user conduct tests to determine the suitability of the product for the intended use on appropriate substrates.

Use cases for FORREST INFERNEX®

Specifically formulated for optimum performance under harsh conditions for:

- Exhaust systems
- Industrial silencers
- Engine parts
- Other high temperature applications

Benefits for FORREST INFERNEX®

- Rapid cure
- Excellent over-bake stability
- Excellent corrosion resistance
- Direct to metal applications
