

INFERNEX®
PROVEN HIGH HEAT PERFORMANCE.

Engineers and equipment manufacturers have trusted Forrest Technical Coatings for decades as a world leader in high performance liquid coatings. Our latest comprehensive collection, INFERNEX®, is specially formulated to solve your exterior exposure challenges by providing a cost-efficient application that delivers on appearance and corrosion resistance with low environmental impact.

Forrest Technical Coatings has been the respected global manufacturer and distributor of the high temperature Stove Bright® brand since 1978. We bring the same innovative chemical engineering and experience to the INFERNEX® product line.

VER2

INFERNEX® LZ-1100 | (251H SERIES)

INFERNEX® LZ-1100 is a zinc-loaded formulation which means no primer necessary! This coating has excellent color and gloss retention. For superior corrosion resistance on exterior surfaces especially at temperatures up to 1100° F (593° C).

INFERNEX® LZ-1100 | (251H SERIES) *(251H201 Charcoal & 251H219 Black)*			
Peak Temp	1100° F (593° C)	Continuous	1100° F (593° C)
Adhesion (8 Hrs)	5B	Color Change (8 Hrs)	PASS
240 Hrs Salt Spray ASTM B117/D1654	PASS	Pencil Hardness ASTM 3363	H
Gloss @ 60° ASTM D523-14	2-7		

It is always recommended the user conduct tests to determine the suitability of the product for the intended use on appropriate substrates.

Use cases for FORREST INFERNEX®

Specifically formulated for optimum performance under harsh conditions for:

- Exhaust systems
- Industrial silencers
- Engine parts
- Other high temperature applications

Benefits of FORREST INFERNEX®

- Rapid cure
- Excellent over-bake stability
- Excellent corrosion resistance
- Direct to metal applications
