High Temperature Paint

The Industry Standard Since 1978. Stove Bright® High Temperature Paint has been trusted by stove manufacturers, distributors, and private label partners worldwide for more than four decades. With proven high-temperature performance, 36+ standard colors, OEM-quality finishes, and matching touch-up solutions, Stove Bright has become the preferred coating system for the hearth industry.

Why Choose Stove Bright®

Proven Performance

Engineered to withstand demanding high-temperature environments while delivering long-lasting durability, color stability, and reliable performance.

Broad Color Selection

With 36+ standard colors and custom color matching capabilities, Stove Bright makes it easy to meet customer and OEM color requirements.

Multiple Product Formats

Available as OEM liquid coatings, aerosols, and brush-on paints to support manufacturing, installation, and product maintenance.

OEM-Quality Touch-Ups

Matching aerosol touch-up paints help manufacturers, distributors, and installers maintain a consistent factory finish from production through installation and service.

Common Applications

- Wood Stoves
- Pellet Stoves
- Gas Stoves
- Fireplace Inserts
- Vent Pipe
- Fireboxes
- Barbecues
- Smokers

Complete System

While Stove Bright® High Temperature Paint is at the core of our product line, we also offer a complete range of complementary products designed to support installation, maintenance, and long-term performance.

- **Paint Prep**
  Prepare metal surfaces for painting by removing grease, oils, and contaminants to help promote proper coating adhesion.
- **Specialty Cleaners**
  Purpose-built cleaners designed for common hearth maintenance needs.
- **High Temp Sealants**
  Create durable, airtight seals for demanding high-temperature applications.
- **Fire Starter Gel**
  A clean, convenient gel fire starter that ignites quickly and stays where it's applied.
- **Roof Flashing Paint**
  Exterior high-temperature paint designed to blend vent pipe and flashing with common roofing colors.
- **Glass Cleaner**
  Specially formulated cleaners that remove creosote, soot, and residue to keep stove and fireplace glass clear.
- **RTV Sealants**
  Flexible, high-temperature silicone sealants designed for sealing joints and components exposed to heat.
- **Gasket Cement**
  Secure and seal gaskets in heating appliances for long-lasting performance.
- **Vent Pipe Paint**
  High-temperature paint formulated to match factory finishes on gas vent pipe.
